| October | Condition Specific Coding & Best Practice Workflow |
| November | Risk Adjustment 101 & Condition Specific Coding |
| December | Risk Adjustment 101 & Best Practice Workflow |

Risk Adjustment 101

Understand Risk Adjustment and Hierarchical Condition Categories (HCC's). Discuss how Risk Adjustment impacts your success in ACO work. Outline best practices for documentation and coding.

Best Practice Workflows

Identify how to use the AWW to contribute to complete and accurate diagnosis coding. Discuss team-based documentation to improve documentation and coding at all visit types.

Condition Specific Coding

Identify the documentation needed to substantiate common chronic conditions, such as diabetes, chronic kidney disease, and major depressive disorder. Apply correct coding rules to documentation examples in order to capture the most complete and accurate diagnosis codes.

Condition-Specific Coding Video Mini-Series

Self-Service Education for Providers Under 10 Minutes

The following self-service videos (each 3-8 minutes in duration) are available 24/7 and can be accessed and viewed as many times as needed. This series includes topics on the following:

[Status Conditions](#)
